-

1. Purpose

The Session Review & Results page concludes every completed adaptive practice session.

Its purpose is to:

- Celebrate improvement.
- Reinforce motivation.
- Explain performance.
- Highlight learning progress.
- Encourage continued practice.

This page represents the reward loop of PrepHub.

Students should leave feeling accomplished, informed, and motivated to continue improving.

2. Product Philosophy

The Session Review follows four guiding principles.

2.1 Celebrate Progress

Students should feel rewarded for completing an adaptive session.

Every meaningful improvement deserves recognition.

2.2 Explain Performance

Students should understand **why** their predicted SAT score changed.

The platform should connect score movement to improvements across individual skill categories.

2.3 Encourage Reflection

Students should be able to revisit any question, explanation, or video after completing a session.

Learning continues after the session ends.

2.4 Inspire the Next Session

The final screen should naturally encourage students to continue studying while also allowing them to return to the dashboard.

3. Goals

The Session Review must:

- Celebrate completed sessions.
- Display the updated PrepHub Score Prediction.
- Show progress toward the student's target SAT score.
- Explain overall performance.
- Display mastery updates.
- Allow complete question review.
- Encourage the next adaptive session.

4. Non-Goals

This PRD does not define:

- Adaptive question generation.
 - Dashboard analytics.
 - Long-term progress trends.
 - Billing.
 - Authentication.
 - School Community.
-

5. Review Flow

Every completed session follows the same sequence:

1. Celebration
 2. Updated PrepHub Score Prediction
 3. Goal Progress
 4. Session Breakdown
 5. Mastery Breakdown
 6. Question Review
 7. Continue Practice / Back to Dashboard
-

6. Celebration

Immediately after completing a session, students are shown a completion celebration.

Example:

 **Session Complete!**

If the student's predicted SAT score increased, the celebration should clearly highlight the improvement.

Examples:

- +10 Estimated SAT Points
- +20 Estimated SAT Points
- +30 Estimated SAT Points

Every increase should be celebrated.

7. PrepHub Score Prediction

Following the celebration, PrepHub displays the student's updated predicted SAT score.

The prediction animates from the previous estimate to the new estimate.

Example:

Previous

1450–1510

↓

Current

1470–1530

Predictions continue to be displayed as score ranges.

8. Maintaining or Decreasing Prediction

If the prediction remains unchanged:

PrepHub should display encouraging language.

Example:

You're maintaining an excellent level.

If the prediction decreases:

PrepHub should communicate this honestly without discouraging the student.

Example:

Your predicted score decreased slightly this session. That's completely normal—progress isn't always linear.

The platform should never hide decreases.

9. Target Score Progress

Every student selects a target SAT score during onboarding.

The Session Review displays:

- Target SAT Score
- Current PrepHub Score Prediction
- Progress toward the goal

Example:

Target

1550

Current Prediction

1470–1530

Message:

You're now within reach of your target score.

The wording should remain encouraging while accurately reflecting the student's current progress.

10. Session Breakdown

PrepHub summarizes the completed adaptive session.

Metrics include:

- Questions Correct
- Total Questions
- Accuracy
- Average Time Per Question
- Total Session Time

This section provides a concise overview without overwhelming the student.

11. Mastery Breakdown

PrepHub displays mastery across all seven learning categories.

The categories are:

- Reading Comprehension
- Grammar
- Vocabulary
- Algebra
- Geometry & Trigonometry
- Advanced Math
- Problem Solving & Data Analysis

Each category displays:

- Current mastery level
- Change during this session

Example:

Reading Comprehension

+3%

Geometry & Trigonometry

-1%

Students should immediately understand:

- Their strongest areas
 - Their weakest areas
 - Which skills improved during the session
 - Which skills require additional attention
-

12. Question Review

Students may review every question from the completed session.

The initial Question Review remains intentionally compact.

Rather than displaying every question immediately, PrepHub displays a list of all questions.

Example:

✓ Question 1

✗ Question 2

✓ Question 3

✗ Question 4

...

Selecting a question opens its detailed review.

13. Detailed Question Review

Every reviewed question includes:

- Original question
- Student's submitted answer
- Correct answer
- Written explanation
- Video explanation

Students may revisit explanations as many times as they wish.

Question Review exists purely for learning and reflection.

14. Navigation

At the bottom of the Session Review, PrepHub presents two actions.

Primary:

Continue Practice

Secondary:

Back to Dashboard

Students may immediately begin another adaptive session or return to the dashboard.

15. Visual Design

Celebrations should feel rewarding without becoming distracting.

Animations should remain smooth and professional.

The Session Review should maintain visual consistency with the rest of PrepHub.

16. Acceptance Criteria

Celebration

- Every completed session displays a completion screen.
- Every predicted SAT increase is celebrated.
- Updated predictions animate smoothly.

Prediction

- Updated PrepHub Score Prediction is displayed.
- Predictions remain score ranges.
- No-change sessions display encouraging language.
- Decreases are communicated honestly and calmly.

Goal Progress

- Student's target SAT score is displayed.
- Progress toward the target is shown.
- Motivational messaging adapts to the student's current prediction.

Session Breakdown

- Questions Correct is displayed.
- Accuracy is displayed.
- Average Time Per Question is displayed.
- Total Session Time is displayed.

Mastery Breakdown

- All seven learning categories are displayed.
- Current mastery levels are shown.
- Session-by-session mastery changes are shown.
- Students can clearly identify strengths and weaknesses.

Question Review

- Every question appears in a compact review list.
- Selecting a question opens a detailed review.
- Detailed review includes:
 - Original question
 - Submitted answer
 - Correct answer
 - Written explanation
 - Video explanation

Navigation

- Continue Practice begins another adaptive session.
- Back to Dashboard returns the student to the Home Dashboard.

Overall Experience

By the end of the Session Review, students should clearly understand:

- How they performed.
- How their predicted SAT score changed.
- Which skills improved.
- Which skills need more work.
- How close they are to their target score.
- What they should do next.
